## CARBO BLUE DESERT EAGLE

w/ TITANIUM GOLD APPOINTMENTS

The Desert Eagle is a gun that commands attention, and the new Carbo Blue finish takes it to the next level. This stunning blue hue is sure to turn heads, whether at the range or just showing it off to friends. The Carbo Blue finish is an eye-catching Physical Vapor Deposition finish (PVD). The controls on the Carbo Blue Desert Eagle are finished in a titanium gold color, which provides a subtle contrast to the blue finish. This gives the gun a more elegant and refined look, while still maintaining its aggressive and powerful appearance.

In addition to its beautiful looks, the Carbo Blue Desert Eagle is a powerful and reliable firearm, chambered in .50 AE. With a 6" barrel and integral muzzle brake, the Desert Eagle measures 10.75" in overall length. Titanium gold combat sights, black rubber grips, picatinny optics rail, and one 7 round magazine are standard features. The construction of the Mark XIX Desert Eagle utilizes the latest CNC machine technology providing exacting specifications and tight tolerances. The result is a work of art in a precision firearm, enhanced by the beauty of the Carbo Blue finish.

Whether you are a collector, a hunter, or just someone who appreciates a well-made firearm, the Carbo Blue Desert Eagle is a gun that you will be proud to own!
